

2023-2024 Dayton Region Priority Development and Advocacy Committee (PDAC) Process

Defense Review Panel Criteria

Adopted December 10, 2021

The following are the criteria used in evaluating a project considered by the Defense Review Panel, in priority order.

1. Support for Wright-Patterson Air Force Base, Dayton VA Medical Center, and Springfield Air National Guard Base (Dayton Region Defense Installations)

Will the project support the goals and objectives of Dayton Region Defense Installations? Will it support the physical and administrative infrastructure of Dayton Region Defense Installations? Will it increase the military value of Dayton Region Defense Installations? Will it better enable Dayton Region Defense Installations to meet the needs of Department of the Air Force and Department of Defense leaders and the national defense? Will it improve the efficiency of Dayton Region Defense Installations operations?

2. Support for the Dayton region defense and aerospace community.

Will it increase the size and quality of the Dayton region defense and aerospace industrial base? Will it enhance the skilled workforce in the Dayton region that supports defense and aerospace activities? Will it enhance Dayton region institutions, including educational and cultural organizations that support defense and aerospace activities?

3. Support for national defense.

Will the project support national defense?

The Defense Review Panel will consider questionnaires from both nonprofit and for-profit organizations but may give priority to non-profit organizations. The Review Panel will consider both administrative and capital projects.
